

TJSS T6 Cam-action door closer with slide rail

Graceful door closer

The TJSS T6 sets new standards. Its clear linear form, quality materials and compact housing make every door look good. Thanks to its outstanding intrinsic values, the T6 satisfies all the regulatory standards with ease, from fire protection to accessibility. This single model fits doors from 0.6 to 1.4m wide.

Quality characteristics

- sleek design in stainless steel
- engineered and manufactured in Switzerland
- easy access due to patented hybrid drive
- maintenance-free due to thermostatic adjusting valves
- barrier-free according to DIN18040 for doors up to 1.10 m width

The smallest in its class

With a mounting height of just 43 mm and an overall height of 53 mm, the T6 is designed to be extremely compact. This not only looks good, but also means it can be reliably installed in confined spaces.

Short and sweet

With its optional short rail, the T6 looks like it is made from one single piece: A visual impression of unified body and rail, with the most negligible of gaps. The T6 fits per to other door fittings in stainless steel perfectly.

Please take note of our other TJSS door-closers:

TJSS T46. The slide rail door-closer

Slide-rail door-closer with optimal efficiency – due to teflon-coated pistons and sliding rollers (art.no. 3.16.1)

TJSS T44. The door-closer with arm

Versatile door-closer with automatic back-check and infinitely adjustable closing force (art.no. 2.01.1)

Advantages TJSS door-closers

Efficiency: With the same closing force TJSS door closers have up to 50% less friction than competing products, thanks to the use of Teflon-coated pistons. Your benefit: noticeably smoother closing doors!

Installation friendly: Lateral assembly flanges and pull-out axis make it possible to install even in difficult situations. Various special designs are available for special cases.

Temperature stability: No matter whether it is summer or winter, the patented thermo-stable regulation valves prevent varying closing speeds at changing temperatures.

Swiss made: TJSS door closers are produced in Switzerland and represent the highest precision and quality, therefore they come with a manufacturer warranty of five years.
